Lake Villa Grade School Dist. 41 gave approval to the purchase of a site for a new school in Lindenhurst for \$11,000 and a \$200,000 bond issue to erect the new building in a referendum Saturday during the regular school election.

The purchase of the site was approved 547 to 251, and the issuance of the bonds by a vote of 554 to 221.

In other voting, John Brandt, incumbent, and Herman Wolff, unopposed, were elected to the board of education by 705 and 693 votes respectively.

Voting was at the grade school in Lake Villa (No. 1) and in a temporary school building at Lindenhurst (No. 2). The results were: Precinct Site, Bonds Bldg., Bonds

Vote	Yes	No	Yes	No
No. 1	251	134	264	122
No. 2	296	117	290	109

The board of education will give the go-ahead signal to the architect and prepare to sell the bonds. By the time the plans and specifications are ready the bonds will be offered for sale and bids on construction sought. It will be well into the summer before construction will start.

Construction of the new Prince of Peace parochial school which is well under way is expected to be completed by summer so that the public school can be relieved of some of its surplus. By the following year when the public school is completed, the increase in the number of pupils will well fill the new building which will have nine rooms, offices and a kitchen.

The district is now housing the overflow in the Cedar Lake school building and a farm building at Lindenhurst.

Always the most popular and well attended week-day service of the year, it marks the ending of Lent and the beginning of the vigil of the Resurrection. The Falcons recently lost a hard fought game to St. Mary's 8 to 2. The score was a tie 2 to 2 at the beginning of the tenth. Both teams had played air tight ball. Then St. Mary's cut loose with eight hits and before Skora could settle down had pushed across six runs.

The Antioch Grade School board Tuesday evening re-elected Norman Jedele president and Mrs. Helen Kopriva, secretary.

## Mailless Weekend Saw Monday Rush At Antioch Office

Loads of mail for Antioch carriers were heavier Monday, as the result of the national closing of postoffices and elimination of deliveries Saturday, but the mail was delivered in the usual time, according to Postmaster Roy I. Kufalk.

Kufalk said that the village as well as the rural carriers sorted their mail Saturday and were through at 9:30 a. m. Then the rural carriers delivered parcel post packages for which there was no room at the post office, and special delivery mail.

The savings to Uncle Sam was on use of equipment and a few hours of carrier time.

Postmaster Kufalk said that the office on Monday drew a big rush, perhaps because of the improved weather which brought people down town shopping.

Just what is planned for this weekend in the way of mail curtailment is not known.

## Pirates Beat Sequoits; Antioch at Ela-Vernon; Play Glenbrook Next

Antioch High will be seeking its first conference victory in baseball today when the Sequoits play Ela-Vernon at Lake Zurich.

The game was moved ahead one day to avoid Good Friday.

Coach Larry Leon is seeking greater strength in his first and third base positions. He will move Bill Jarvis up from the sophomore squad to first base and use Pyle at third base. Frank Ferdon will be on the mound.

Pyle had an off day yesterday, walking nine batters and yielding seven hits to Palatine who won from Antioch here 7-2. Palatine had only three earned runs. The Sequoits made eight errors, for a total of 18 in the last three games.

On the other hand Palatine played errorless ball and Helms held Antioch to four hits.

Pyle's home run in the fourth inning broke up Helms' threat at a shutout.

Antioch will have a busy week next week. The Sequoits will play the conference-leading Glenbrook here Tuesday, play Wauconda a make-up game from last Friday there Thursday, and play Fenton at Bensenville Friday.

## Cunningham Vic. Over C. Cermak for Village Board

**Entire Peoples Party Elected; Eight Hundred Went to the Polls Tuesday**

Murrill Cunningham will be Antioch's village president for the next four years.

He and his entire People's Party were swept into office in Tuesday's election which saw what is believed to be the village's heaviest vote.

Cunningham received 461 to his opponent Charles J. Cermak Jr., 320.

Returned to office as trustees were Ernest H. Glenn with a vote of 410 and John M. Blackman, with a vote of 481. Equalling Blackman's vote was that of Bernard N. Osmond, 481, on the People's Party ticket in the place of Arthur Hawkins, trustee incumbent, who did not seek re-election.

E. Elmer Brook with a vote of 553 won over Herbert W. Horton, 187, for police magistrate.

Unopposed for office, Clarence B. Shultis, clerk, received 717 votes, and Mrs. Martha Hunter, treasurer, 722 votes.

Unsuccessfully as independent candidates for trustee were Einar Petersen 343; Frank D. Powles 190; Bruno Manzardo 127; and George E. Kellogg 105.

There were quite a few write-in votes, some seriously and others in fun. For village president Attorney Richard Seyfarth received 11 votes, Bernard Osmond 2, Elmo Edwards 2, Edwin Hood 1, and Ray Toft 1. For village clerk, E. C. Jacobs got one and J. L. Horan, 1. For treasurer, Lillie Petty got 1 and Shirley Gutowski 1; for police magistrate, Dickie Brogan 1, Ted Kaplan 1, and Lester Osmond, Jr., 1. For trustee, Leonard Roblin 1.

Eight years ago when Charles Cermak opposed the late George B. Bartlett, he got 223 votes to Bartlett's 254. In contrast to the 477 votes cast then, the two candidates for village president got a total of 781 votes.

Cunningham will relinquish his present post as trustee, and he and the board will choose his successor. While they may appoint anyone they choose, the most popular candidate among the losers was Einar Petersen, who had 153 votes more than his nearest opponent.

The new officers will be sworn in at the next meeting of the Board on May 5.

### "Beneficial to the Whole Western World"

As a normal thing, foreign nations which possess sizeable merchant marines have worked to the best of their ability against the development of the American merchant marine. The reason is obvious—these nations want the traffic to be carried by their ships, not ours. Norway, a major maritime power, has been among those nations.

That fact lends great significance to an editorial which appeared in the Norwegian Shipping News a short time ago. It was inspired by the Suez crisis and the general increase in world political tensions, which have made it necessary for the United States to come to the aid of Western Europe with oil and other basic supplies. The editorial said, in part: "History has shown that the Western world needs a very substantial reserve of tonnage to be activated in times of crisis, and only the United States can afford to build and maintain such a fleet . . . In order to maintain a reserve fleet large enough to meet all foreseeable demands, the U. S. must have an active merchant navy and a shipbuilding industry capable both of servicing the existing fleet and building new and more efficient vessels. On these grounds we welcome the substantial new-building programme now getting under way in American shipyards."

In other words, this authoritative Norwegian journal recognizes the obvious fact that if we are to be able to handle world crises to the advantage of our friends, we must have an adequate operating merchant marine at all times. The editorial's last sentence is especially noteworthy: "A continuation and extension of the present replacement programme would not only strengthen the U. S. merchant fleet—it would be beneficial to the whole Western world."

### Cutting the Budget

The proposed \$71.8 billion federal budget—largest in our peace-time history—has caused more concern than any domestic problem in a long time. And that concern is not of a partisan nature. It is shared by men high in the President's official family, and by Senators and Representatives of both parties.

There are all manner of suggestions as to where and to what extent this budget can be cut. The details of budget-cutting constitute a field for the experts. But you don't need to be an expert to understand one thing—that the logical place to make the deepest cuts is in areas where the government is

carrying on jobs, at taxpayers' expense, which could and should be done by taxpaying private enterprise. This simply means that it is time we got the government out of business. And an excellent place to begin would be the non-taxpaying socialized electric power systems.

Some time ago various prominent men suggested that these systems be sold to private enterprise. That proposal gained wide and enthusiastic response. Unfortunately, little has been heard of it lately. But it is even more valid, even more urgent, now than in the past. Some of the systems would bring in a huge amount of money. It is felt that some of the systems, incidentally, would bring the government more than they cost, as they were built at a time when the dollar had much greater value.

That would be only the beginning. The systems, for the most part, are both free of taxes and are subsidized by taxes. In private hands, the subsidies would end—and in addition the systems would become major taxpayers. The importance of this is illustrated by the fact that the average independent utility company now pays about 23 per cent of all its revenues from power sales in taxes.

It would take time to make these sales. Meanwhile, we could further brighten the budget picture by putting the socialized systems on a business basis and demanding that they pay all the costs of operation, as do private concerns—including taxes.

### Don't Kiss Railroads Good-bye!

The railroads have been carrying on their passenger business at a deficit. There are various ways of figuring out how big the deficit is, and various totals result, but in any case it is a very serious one. And some have come to the conclusion that it is just a matter of time before railroad passenger service becomes largely extinct.

This caused the New York Herald Tribune to say: "But before anybody kisses the railroads good-bye, it would be well to think about how New York City and the metropolitan region would manage without this part of mass transportation. To dump several hundred thousand extra travelers on the highways each day would be disastrous, both to personal convenience and to general prosperity. . . . What the metropolitan region needs is more mass transportation, not less." The paper then emphasized that this problem is not confined to the huge cities, saying, "In this every community, and not New York City alone, has a vital interest."

There is no denying that. Railroad passenger service is a very important asset to the smaller towns of the country. Not everyone, by any means, wants to drive a car on a trip of any distance, in these days of congested roads and soaring accident rates. Not everyone, by any means, wants to fly. On top of that, the big commercial aircraft can be accommodated at only a comparatively few centers, which possess the huge fields and the wealth of complex and costly equipment required.

The railroad passenger problem isn't susceptible to an easy or pat solution. But everyone with an interest in this country's welfare will wish the best of luck to those who are seeking solutions.

SUPER IN HOLIDAY COUPE

Neighbor: Say, your new Olds sure looks like a lot of car!

Olds Owner: That's nothing, wait'll you take a ride.

(A few minutes later:)

Neighbor: Man-oh-man, where'd all that power come from? I've never felt anything like that before!

Olds Owner: That's Oldsmobile's new J-2 Rocket Engine!

Neighbor: What's that? Tell me how it works.

Olds Owner: When you're driving under ordinary conditions, it uses only one carburetor. That means economy with a capital E. But when you need a sudden burst of power, for safety's sake, you just press the accelerator three-quarters of the way down—and two additional carburetors cut in!

Neighbor: In other words, with J-2, you can have economy when you want it and power when you need it. That's for me!

Olds Owner: Better see your Olds dealer. He's expecting you!

### Lake Villa Com. Methodist Church Easter Services

There will be five services held during Holy week in the Lake Villa Community Methodist Church. Maundy Thursday evening at 7:30 p. m. the sacrament of the Lord's Supper will be observed. The Senior choir will sing Stainer's "God So Loved the World" as the anthem, and will also present portions of the choral communion service. Members of the pastor's preparatory class will receive communion together.

On Good Friday the congregations of the Lake Villa Methodist and Lakeland Baptist churches will unite at 1:00 p. m., with the Rev. Gerald Robinson and the Rev. Dale Van Hovel speaking on "The Cross of Calvary." The combined Methodist and Baptist choirs will sing "Behold the Savior of Mankind"; Mrs. James Roberson will sing "Calvary," and Mrs. Richard Bolt will sing "Were You There?" A supervised nursery will be available for children of pre-school age.

Easter services will begin at 6:30 a. m. Sunday morning. The Rev. Mr. Robinson will have members of the Methodist Youth Fellowship assisting him at the Sunrise Service, and Mrs. Warren Brown will be at the organ. Mrs. Richard Bolt, soprano, will present "Alleluia" by Connor-Morris as the offertory solo. Men of the church will serve an Easter breakfast in the dining room of the church at 7:30 a. m. Mr. Robert Rollin will be in charge of arrangements.

Two later services will be held with the Rev. Mr. Robinson giving the Easter message, "Thine Is the Kingdom," the last in his series of sermons on the Lord's Prayer. The Senior Choir will sing the anthem "Alleluia" by Wilson for both services, with Miss Susan Romer at the organ and a trumpet trio of Jay Cribb, Dennis Dewar and Ronald Mack. In addition the Cherub Choir will sing "The Strife Is Over" at 9:45 and the Junior choir will sing "Once There Was a Garden" at 11:00. There will be no church school, since families of the church are urged to come together, but there will be a supervised nursery for children under six, at both services.

**Plans for Carnival**  
The three organizations, Legion Auxiliary and K. C. are busy with plans and work to put on the annual carnival which will be held July 10-14.

**Girls State Representative Chosen**  
One of the important phases of the American Legion Auxiliary's state Americanism program under the Youth and Community projects, is its sponsorship of Illini Girls

State. Mrs. Lucy Himens, Antioch Unit 748 Girls State chairman, announced that Miss Judith Pyle, student of Antioch High school, will be the choice to attend the 1957 session of Illini Girls State, to be held June 18 to 25, on the MacMurray College campus at Jacksonville, Ill.

Illini Girls State was started in 1936 and Illinois was one of the first states to create such a school to provide citizenship training for approximately 470 high school juniors. It is a mythical state patterned after our state of Illinois government, and this seventeenth annual session will afford the girls the opportunity to live together as self-governing citizens; to learn "by doing" the duties and responsibilities as well as the rights and privileges of American citizenship, in order that they may better understand and participate in the functioning of our government. When the week's school is completed, two of its most valued citizens are selected by the girls to attend the Auxiliary's "Girls Nation," held in Washington, D. C., each year the first week in August. Here the girls are taught the functions of our gov-

ernment on a national level.

The staff of Illini Girls State includes experienced teachers in civics and government, and others well qualified in their knowledge of the various programs. No staff member is reimbursed for her week of service; all serve on a voluntary basis. A regular post office is set up on the premises for the use of the citizens. They attend the church of their choice on Sunday morning and are taken to Springfield one day, to visit the buildings used in our state government, and the Lincoln shrines. June 23rd, Sunday, will be visitors' day, when many parents visit Girls State as well as interested Auxiliary members and alumnae of earlier sessions. A late afternoon reception is given, honoring all guests on Sunday.

Chosen because of her qualifications of good character, alertness, honesty, leadership and cooperativeness in her school's activities, Miss Pyle's participation in Girls State will be followed with interest by her many friends here, says Mrs. Horton, president of Antioch Unit No. 748 American Legion Auxiliary.

Goes to Federal Institution

## Illinois TAX FACTS

Taxpayers were warned last week that the current Congressional economy drive may be slowed up if members of Congress do not hear from "the people back home." Maurice W. Scott, executive secretary of the Taxpayers' Federation of Illinois, said the actions of the House last week, in passing the \$2.8 billion measure appropriating funds for fiscal 1958 for the U. S. Departments of Labor and Health, Education, and Welfare, "were disturbing in some respects."

"The House of Representatives cut \$134.5 million from the budget requests before it passed the bill a week ago. However, we are advised that some of these reductions may have to be restored later, because of commitments for grants to the States for public assistance and for unemployment compensation programs," the Federation spokesman stated.

"Even more disturbing was the fact that more than \$50 million additional was tentatively cut from the bill at one point, only to be voted back in when House members were forced to stand up and be counted for the record. If this means that members of Congress believe 'economy' votes are unpopular with their constituents it is the job of us taxpayers to reassure them," Scott declared.

"We believe that all of the good citizens of Illinois should let their Representatives and Senators know

that this year, more than ever before, the taxpayer is demanding economies. We expect and believe that our members of Congress will vote their convictions," but they should be made aware that their actions are being followed as never before."

## Safety Shorts on Home Fixing...

Spring is the busiest season of the year for homeowners who either of necessity or choice do a large share of their own home fixing. The Institute for Safer Living of the American Mutual Liability

Insurance Company offers this advice: Before you start to work, safety check all hand and power tools that have been stored away during winter. Be sure that all tools with cutting edges are sharp and free of nicks; also that tool handles are solid and free of defects.

Home ladder accidents account for more than 386,000 deaths or disabling injuries yearly. When using a straight ladder for reaching high places, always set the foot of your ladder at a distance from the wall one-fourth of the length of the ladder, advises the Institute for Safer Living. It's easier to climb, safer to work from, puts less stress on the ladder.

Amateur home painters are most likely to have accident trouble when they devise a makeshift scaffold or ladder for getting at hard-to-get-at places. The Institute for Safer Living of the American Mutual Liability Insurance Co. says, if you cannot build a solid, safe scaffold yourself, get professional help, or better still, have a professional painter handle the high, hard-to-reach places.

Sixty-nine per cent of all homeowners replace their own broken window panes, according to a survey made by the Institute for Safer Living. Of this number, about 43,000 people per year are having serious cut or fall accidents. Wherever possible it is best to remove the sash instead of trying to replace glass from a ladder. It's safer and easier to reglaze the sash on a bench in a workshop. Removing the sash will also give you the opportunity to check and perhaps replace the sash cords.

Fires resulting from improper wiring, misuse of wiring, and faulty amateur electrical repairs are costing the American public over \$75 million annually, according to the Institute for Safer Living of American Mutual Liability Insurance Company. Unless you have money to burn, it's best to call a professional electrician next time you wish to extend a circuit, or repair a burned out motor or appliance switch.

In a recent "peace-time" year, Red Cross transmitted welfare messages at its average rate of 4,500 per day, or 3 per minute.

## THE WEEKLY NEWSPAPER IS THE LIFE OF ANY VILLAGE

Can you imagine what Antioch would be  
like without a newspaper?

No way of learning about important hap-  
penings; no place to publish your wants, your  
legal notices or advertising, your news about  
clubs, civic organizations, sports, and detailed  
information in general.

Weekly newspapers are the most important  
media of news dissemination for small communi-  
ties. They are institutions without which com-  
munities lose their individuality.

Read the Antioch News—subscribe for it  
by the year and it will pay for itself many times  
over through information giving financial ad-  
vantages let alone the entertainment of general  
news.

## Committee on Unit School System Will Make Close Survey

The Community School Unit committee meeting at the Antioch Township High school Wednesday evening set the wheels in motion for a detailed survey of Antioch Township schools. They authorized schools to select two board members and two lay members to serve on sub-committees which are to study these six aspects of the problem:

- 1—Population trends in the school and community.
- 2—Building trend.
- 3—Facilities prior to the existing school unit plan.
- 4—Boundaries and community attitudes.
- 5—Economic conditions and financial structure of the area.
- 6—Curriculum.

The appointees will meet next week and will be assigned to three sub-committees. They will be given detailed instruction and an outline of their work by Northwestern University field service and will engage in their studies within the next three weeks.

Then representatives of Northwestern staff will meet with them to shape up their report which will then be interpreted to the general committee. The timetable calls for completion of the study and report by February 1, 1958. By that time it will be known whether Antioch Township schools will seek to become a Unit system.

Schools in the district are as follows:  
Antioch Township High School; Antioch Consolidated Community Grade School; Grass Lake, Channel Lake; Lotus; Emmons; Lake Villa; Hickory; Millburn, and Newport.
